

Местоположение: Хабаровский край, Амурский район, рп. Эльбан

An aerial photograph of a residential area with various buildings, roads, and green spaces. Overlaid on the image are numerous blue-outlined polygons representing property boundaries. A red line connects 33 numbered points (1-33) in a specific sequence, starting from point 1 at the bottom center and ending at point 33 at the top center. The points are distributed across the map, often following the edges of buildings or along roads. Various text labels are scattered throughout the image, including 'Yandex' in several locations and numerous alphanumeric codes in the format '27.01.0000004.XXXXX', where XXXXX is a five-digit number. These codes are often placed near specific points or within certain boundary areas. For example, '27.01.0000004.1768' appears in the top left, '27.01.0000004.1897' is near point 19, and '27.01.0000004.1762' is near point 33. The map also shows a large paved area on the left, possibly a parking lot or a road, and a large open field on the right. The overall scene is a typical suburban or urban residential development.
